## UMBILICAL CABLE WINCH » Model UCW-40000 GPL

The SOSI Series UCW-40000GPL Umbilical Cable Winches are designed for large ROV umbilical storage and handling operations. Designed for rugged shipboard use and are easy to install on your own vessel, or vessels of opportunity. Their quality open frame steel construction and epoxy finish provide long life even in the harshest marine environments. The UCW's simple design and proven components assure reliable operation that you can depend upon.

The UCW-4000 GPL utilizes an open tubular frame design and is delivered with separate Hydraulic Power Units. This unit is a Goal Post Levelwind (GPL) and can be fitted with a variety of drum widths, cable storage capacities, line pulls, line speeds, horsepower and standard as well as optional features as listed.

Thank you for reviewing the UCW-4000 GPL. Please contact our helpful technical staff if you require assistance with this product. Our team of skilled engineers, designers and trained technicians are ready to assist you with product modifications and solutions to meet your most demanding requirements.

Be it an existing product or a customized package—our mission is to offer innovative engineering, design and quality manufacturing for our diverse and growing global customer base. Take action and make waves with SOSI today!
